1. The railroad station of Livadia (N 42-56, E 25-28) has been developed and enlarged considerably so that it now constitutes one of the main railroad centers on the Stara Zagora - Turnovo - Gorna Oryakhovitsa railroad line. The branch leading off to Gabrovo and Troyan starts at this station. In addition to this branch line, there is another one about two kilometers long which runs to a forest, in the direction of Gabrovo, where underground munitions depots are located.
2. All the new installations at this railroad station were constructed exclusively for military use and for the transportation of military troops. As a result, Livadia may be considered among the most important stations from a logistic point of view.
3. The sketch which appears on page two shows the Livadia railroad station as of the date of this report. The following is the legend to this sketch:
 - A A' A" - New platforms with access ramps to the north
 - B - Tracks to Gabrovo
 - C - Military platform, automobile depot
 - D - Platform for loading freight and military equipment
 - E - Locomotive depot
 - F - Station and freight warehouse
 - G - Passenger terminal
 - H H' H" - Platforms for handling freight
 - J J' J" - Through tracks.
